

My name is Angela Luca and I am a hamden ct resident. I support the SB 1089, section 23-29 bill. I have worked in a school that provides services to children with autism for approximately 4 years now and recently became eligible to sit for the certification exam. I believe that this bill is extremely important because these children should have services that provide adequate training and skills needs to provide these children the treatment they need. Without adequate services from properly trained individuals, it could greatly affect the lives of these children with these disabilities. Please consider passing this bill. Thank you for listening to my concern.

Sincerely,
Angela Luca
